VOLUME 1, ISSUE 36

SEPTEMBER 23RD - 29TH

Did You Know?

A small, two-story terminal building was built in 1929 on the north side of the field, but was replaced in 1940 by a new air-conditioned terminal on Lemmon Avenue. This terminal was expanded twice after World War II to accommodate the rapid growth in commercial airline activity, but was strained to capacity by the mid-1950s.
