Noise Corner

Introduction

Thank you for subscribing to Dallas Love Field's (DAL) Monthly Noise Dynamics. This newsletter is published for those interested in the topic of aircraft noise here at Dallas Love Field by providing useful information, monthly data, upcoming events and news.

Residents interested in receiving our monthly noise dynamics can send an email request to AVINoise@dallas.gov

Upcoming Events

- **The engine runup area is currently not being utilized due to the cross-field construction project. Large aircraft will use Taxiway T for engine runups and all other aircraft will use Taxiway P. The engine runup area is planned to reopen in Fall 2024.**
- **The Dallas Love Field 65 DNL Noise Contour Report using 2023 data is now available. The 2023 report and previous reports can be found [here](#).**

The map below displays the number of complaints and complainants for zip codes in the immediate Dallas Love Field area.

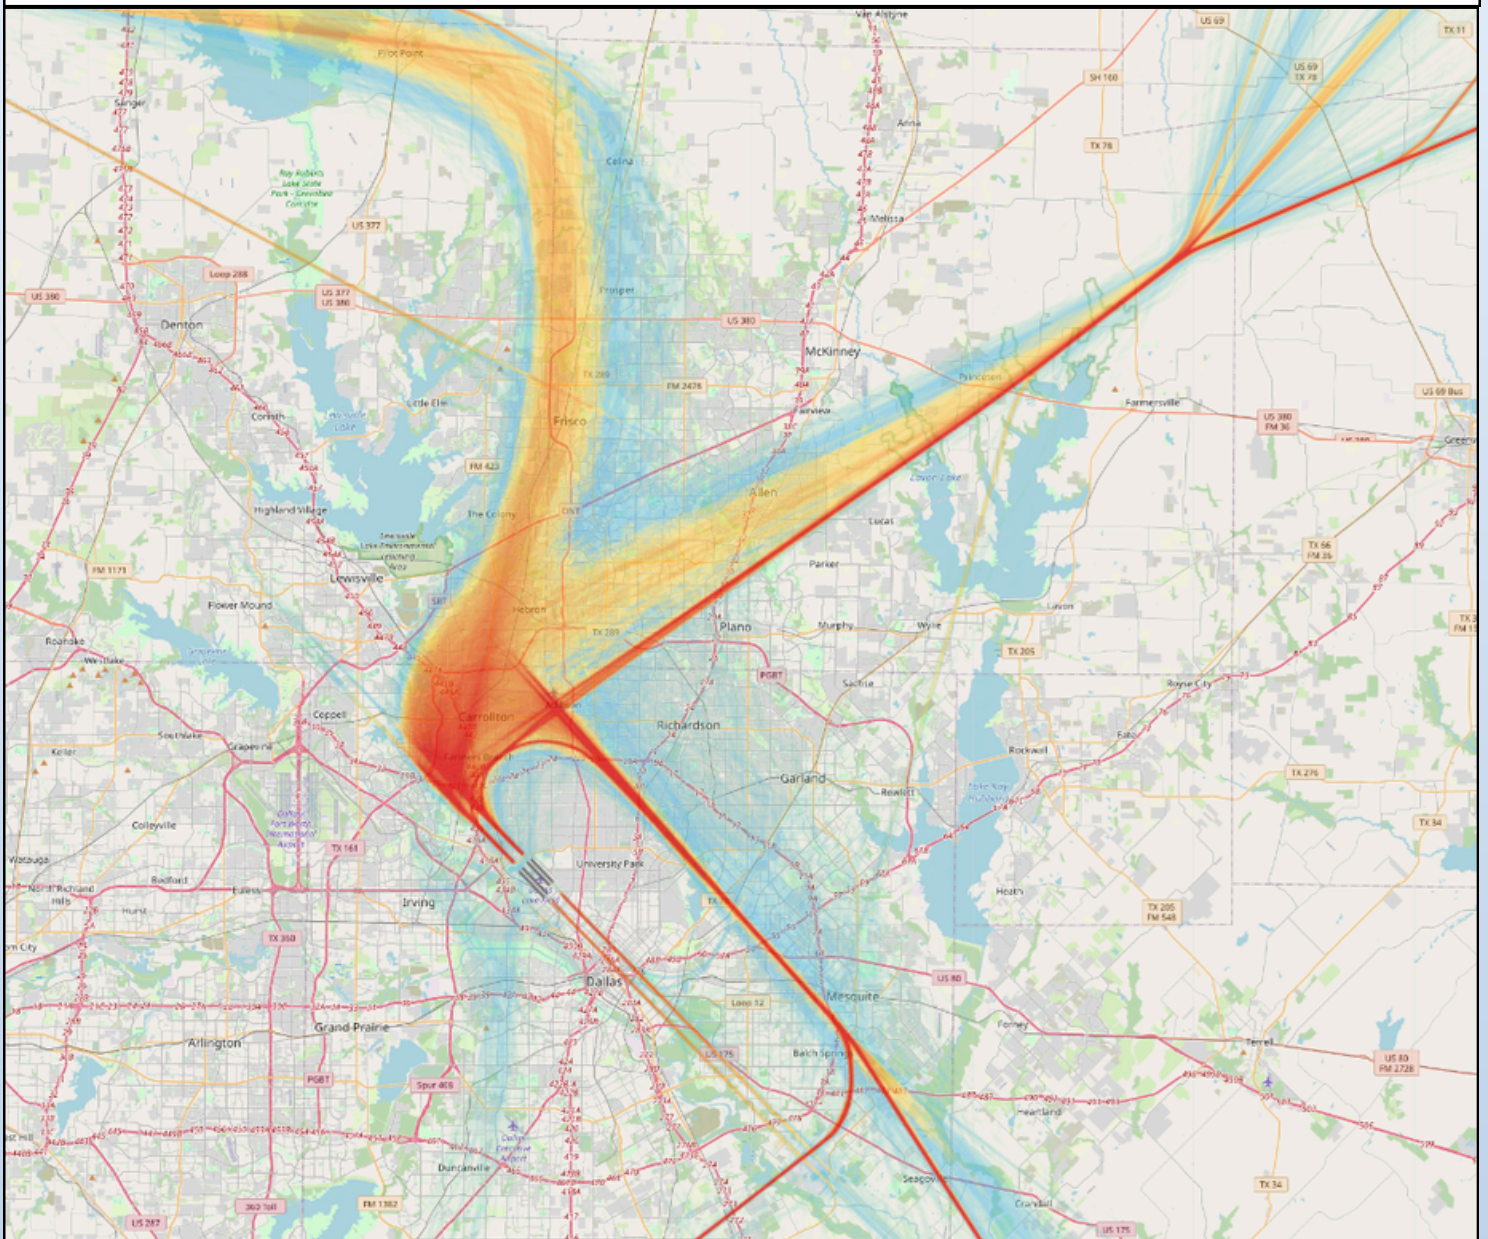

Flight Track Density Map June Departures

The following map takes all departure flight track data for the month and creates the radar density map. Dark red in the middle of the picture shows the highest density of flight tracks over the runways. The colors gradually move out to blue as the least dense.

The following map takes all arrival flight track data for the month and creates the radar density map. Dark red in the middle of the picture shows the highest density of flight tracks over the runways. The colors gradually move out to blue as the least dense.

2023 Day-Night Average Sound Level (DNL) Contour Map

DNL is a metric that reflects a person's cumulative exposure to sound over a 24-hour period, expressed as the noise level for the average day of the year on the basis of annual aircraft operations. Below is a map of the **2023 65 dB** contour map for DAL. The 2023 Contour Report can be found [here](#).
